Confidentiality Provision

All cells that have a value of less than 5, excluding zero, have been changed to display "<5". This rule has been employed for privacy reasons. Where the total fields are included these will only have a value when it does not make it possible to work out the value of any "<5" fields. Not Available (N/A) will be inserted in cells when it may be possible to estimate customer numbers. This will prevent information from being broken down or manipulated to the degree that individuals may be identified, and to cover the legal requirement to protect and individuals privacy.
