Dear Mr President  
Dear Mr Speaker

I hereby submit Portfolio Budget Statements in support of the 2019-20 Budget for the Social Services Portfolio.

These statements have been developed, and are submitted to the Parliament, as a statement on the outcomes for the portfolio.

I present these statements to provide accountability to the Parliament and, through it, the public.

Yours sincerely

**USER GUIDE  
TO THE  
PORTFOLIO BUDGET STATEMENTS**

## USER GUIDE

The purpose of the *Portfolio Budget Statements 2019-20* (PB Statements) is to inform Senators and Members of Parliament of the proposed allocation of resources to government outcomes by entities within the portfolio. Entities receive resources from the annual appropriations acts, special appropriations (including standing appropriations and special accounts), and revenue from other sources.

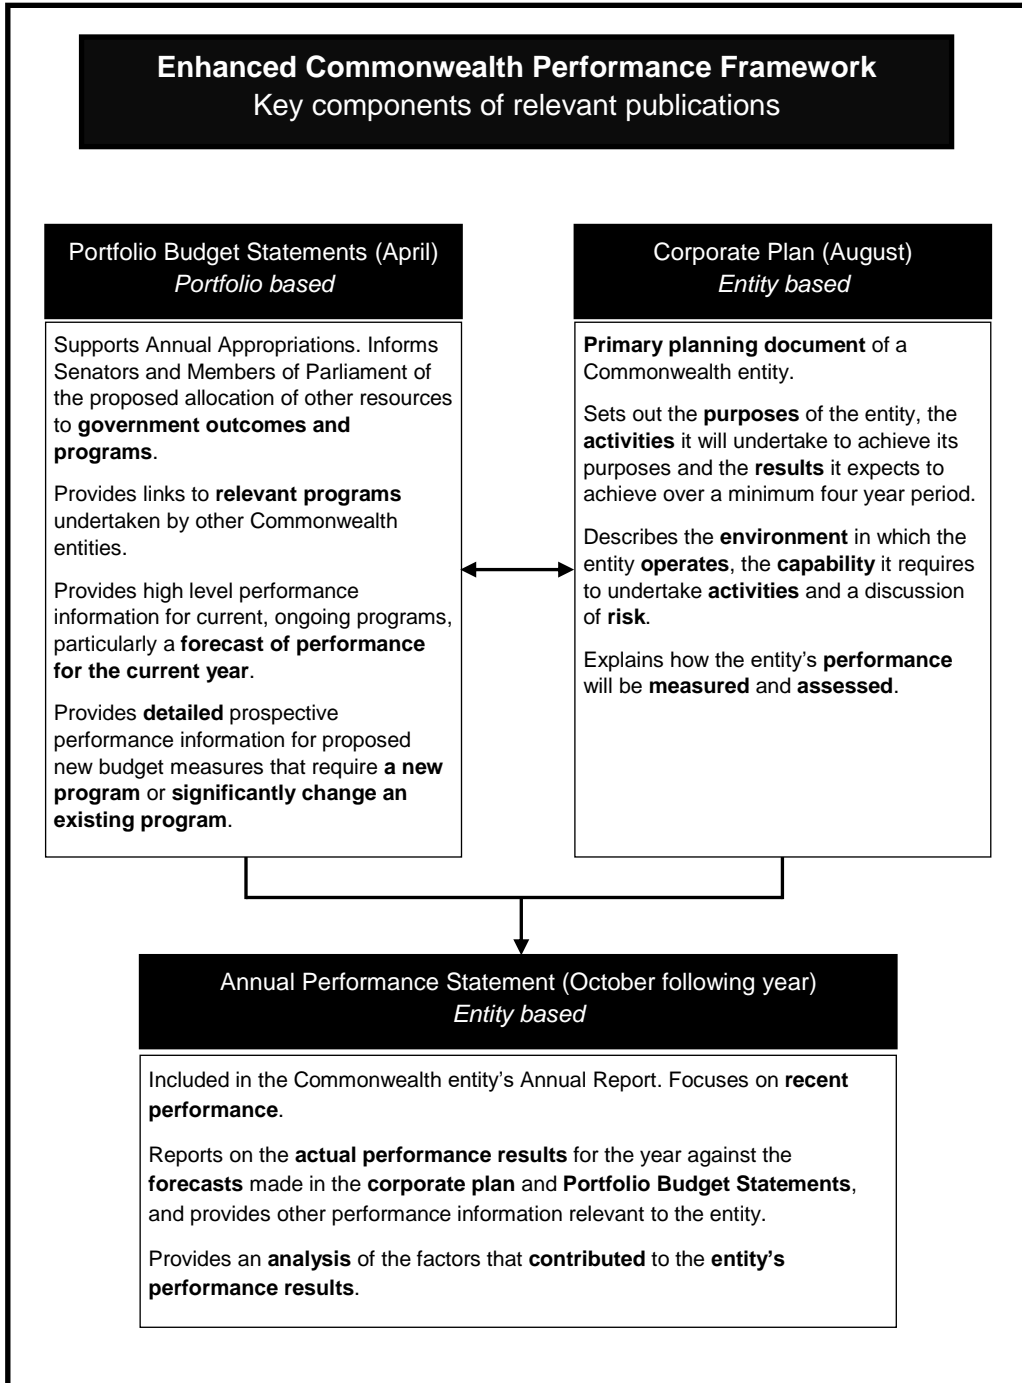

A key role of the PB Statements is to facilitate the understanding of proposed annual appropriations in Appropriation Bills (No. 1 and No. 2) 2019-20 (or Appropriation (Parliamentary Departments) Bill (No. 1) 2019-20 for the parliamentary departments). In this sense, the PB Statements are Budget related papers and are declared by the Appropriation Acts to be 'relevant documents' to the interpretation of the Acts according to section 15AB of the *Acts Interpretation Act 1901*.

The PB Statements provide information, explanation and justification to enable Parliament to understand the purpose of each outcome proposed in the Bills.

As required under section 12 of the *Charter of Budget Honesty Act 1998*, only entities within the general government sector are included as part of the Commonwealth general government sector fiscal estimates and produce PB Statements where they receive funding (either directly or via portfolio departments) through the annual appropriation acts.

### The Enhanced Commonwealth Performance Framework

The following diagram outlines the key components of the enhanced Commonwealth performance framework. The diagram identifies the content of each of the publications and the relationship between them. ## **SOCIAL SERVICES PORTFOLIO OVERVIEW**

This document provides information about the changes within the Social Services Portfolio since the publication of the Portfolio Additional Estimates Statements 2018-19.

For information on the Department of Human Services, refer to the Department of Human Services Portfolio Budget Statements. To prevent duplication of reporting, all references to the Portfolio in this document are exclusive of the Department of Human Services.

### **Ministers and portfolio responsibilities**

The Minister and Assistant Ministers responsible for the portfolio and its entities are:

- The Hon Paul Fletcher MP, Minister for Families and Social Services
- The Hon Sarah Henderson MP, Assistant Minister for Social Services, Housing and Disability Services
- The Hon Michelle Landry MP, Assistant Minister for Children and Families

### **Structure of the portfolio**

Under the *Public Governance, Performance and Accountability Act 2013* (PGPA Act), the portfolio comprises four non-corporate Commonwealth entities (two Departments of State and two listed entities) and one corporate Commonwealth entity. Refer to Figure 1 for further information on the portfolio's structure.

### **DEPARTMENT OF SOCIAL SERVICES**

The Department of Social Services was formed in September 2013 and is subject to the PGPA Act. The Department of Social Services' mission is to improve the lifetime wellbeing of individuals and families in Australian communities. The Department works in partnership with government and non-government organisations to achieve this mission through the effective development, management and delivery of payments, policies, programs, and services. The Department of Social Services is a non-corporate Commonwealth entity under the PGPA Act.

## **AUSTRALIAN INSTITUTE OF FAMILY STUDIES**

The Australian Institute of Family Studies is a statutory body established under the *Family Law Act 1975*. The Australian Institute of Family Studies' role is to increase understanding of factors affecting how Australian families function by conducting research and disseminating findings. The Australian Institute of Family Studies' work provides an evidence base for developing policy and practice relating to the wellbeing of families in Australia. The Australian Institute of Family Studies is a non-corporate Commonwealth entity under the PGPA Act.

## **NATIONAL DISABILITY INSURANCE AGENCY**

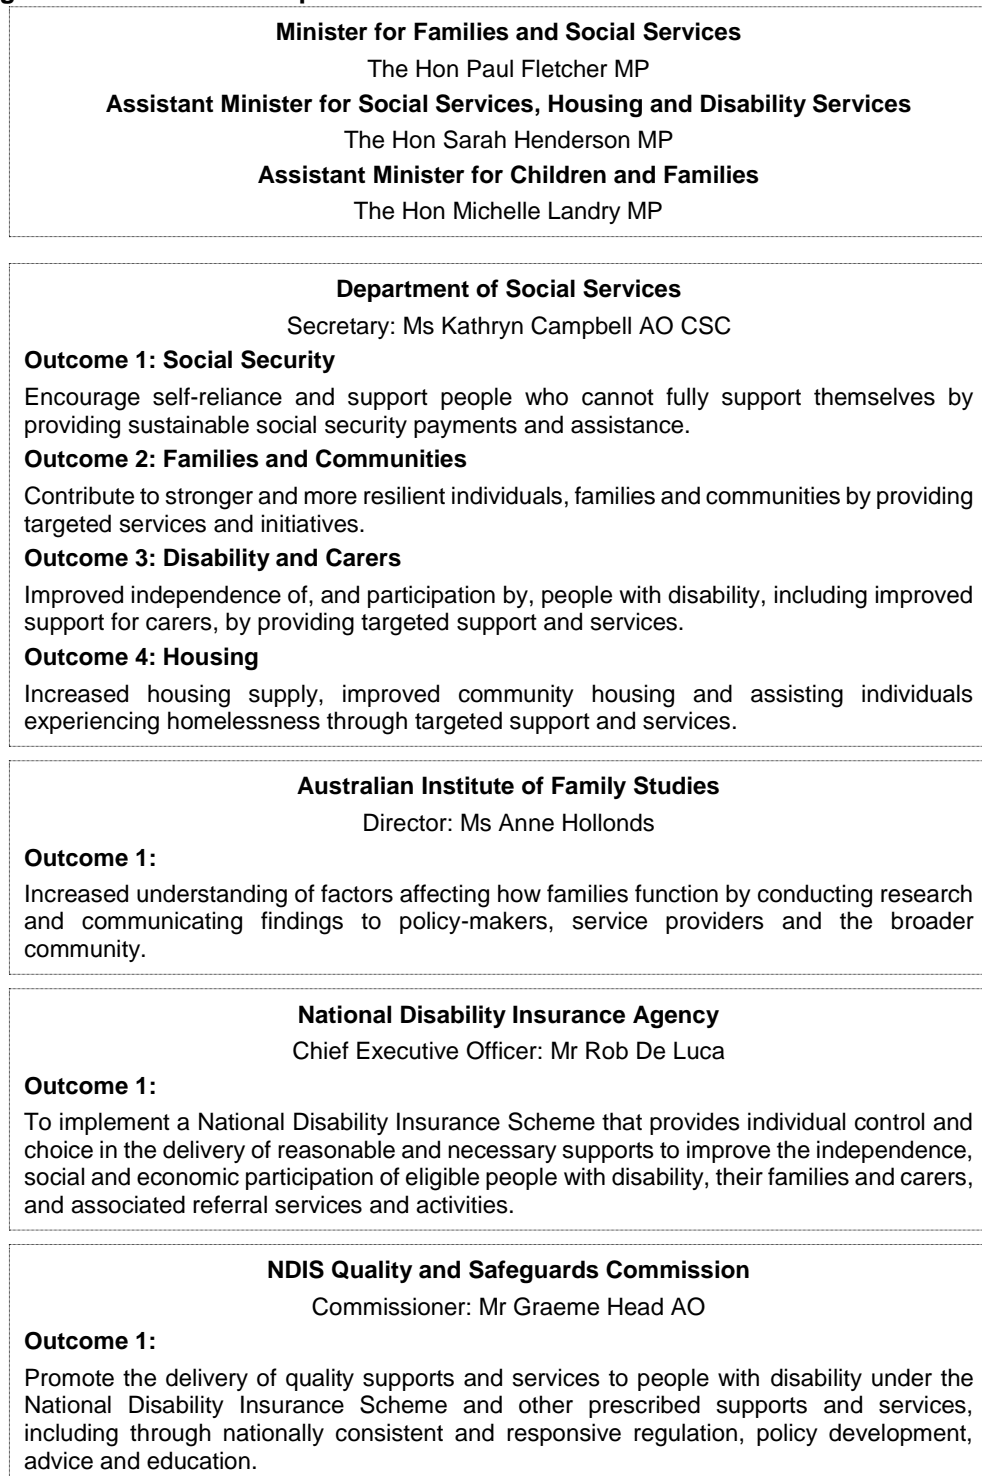

The National Disability Insurance Agency is a statutory authority established under the *National Disability Insurance Scheme Act 2013* to deliver the National Disability Insurance Scheme (NDIS). The National Disability Insurance Agency provides individual control and choice in the delivery of reasonable and necessary supports to improve the independence, and the social and economic participation of eligible people with disability, their families and carers. The National Disability Insurance Agency also plays a key role in building community awareness and understanding of disability matters to reduce the barriers to community inclusion for people with disability, their families and carers. The National Disability Insurance Agency is a corporate Commonwealth entity under the PGPA Act.

## **NDIS QUALITY AND SAFEGUARDS COMMISSION**

The NDIS Quality and Safeguards Commission is an independent Commonwealth statutory body established under the *National Disability Insurance Scheme Amendment (Quality and Safeguards and Other Measures) Act 2017*. The NDIS Quality and Safeguards Commission commenced operations in New South Wales and South Australia on 1 July 2018 and will commence in the remaining states and territories when those jurisdictions complete the transition to full scheme NDIS. The NDIS Quality and Safeguards Commission registers providers and manages quality standards, supports the resolution of complaints, receives and analyses reportable incident notifications, provides leadership to reduce and eliminate restrictive practices and leads collaboration with states and territories to design and implement nationally consistent NDIS worker screening. The NDIS Quality and Safeguards Commission is a non-corporate Commonwealth entity under the PGPA Act.

For information on resourcing across the portfolio, please refer to Part 1: Agency Financial Resourcing in *Budget Paper No. 4: Agency Resourcing*.

## Section 1: Entity overview and resources

### 1.1 STRATEGIC DIRECTION STATEMENT

The Department of Social Services (DSS) provides assistance to individuals and families in Australian communities.

Through policies, payments, programs and services, DSS outcomes reflect four core areas in which we assist people:

- Social Security
- Families and Communities
- Disability and Carers
- Housing

#### Key priorities for 2019-20

The 2019-20 Budget supports Australians to have the opportunity to get ahead and build a better life for themselves and their families. This includes: a major commitment to reduce violence against women and their children; delivering on the *Royal Commission into Institutional Responses to Child Sexual Abuse* key recommendations; establishing a *Royal Commission into Violence, Abuse, Neglect and Exploitation of People with Disability*; expanding and extending the Cashless Debit Card trial; supporting Indigenous boarding school students; delivering one-off payments for flood victims and for energy expenses; making income reporting easier for income support recipients; and helping carers, including young carers, by delivering respite, education and employment opportunities.

#### A fair and sustainable welfare system

The 2019-20 Budget continues to ensure the welfare system is sustainable and encourages independence and participation in employment.

The Government will introduce changes to make income reporting easier. Income support recipients will now report income when it is received rather than when it is earned. This is an important step in modernising Australia's social security system. Together with the Australian Taxation Office's Single Touch Payroll, it will make reporting requirements for recipients and employers easier, reduce income reporting errors and associated debts, and deliver savings of around \$2.1 billion over four years.

Funding of \$36.4 million will help Indigenous students stay longer in boarding school. ABSTUDY recipients who need to live away from home to study will now continue to receive Family Tax Benefit until the student finishes Year 12.

The Government has also committed \$14.1 million for a Social Impact Investment trial to measure social outcomes. Three organisations will be invited to partner with the Commonwealth in the trial, with a portion of their funding linked to measurable outcomes.

### **Helping people recover from the North Queensland flood**

The Flood Education Supplement is for isolated families severely affected by the North Queensland flood. Eligible families can receive a one-off payment of \$1,000 to help them cover their education and related costs. The payment is expected to help 550 students across 11 North Queensland locations.

### **Assistance for energy expenses**

The Australian Government has committed \$284.4 million for a one-off Energy Assistance Payment to support 3.9 million Australian residents with their winter energy bills. From June 2019, the Department of Human Services will make payments of \$75.00 for eligible singles and \$62.50 for each eligible member of a couple.

### **Building personal responsibility to reduce welfare dependency**

The Government is expanding and extending the Cashless Debit Card trial with around 22,500 Income Management participants to transition from the BasicsCard onto the Cashless Debit Card. The majority of Income Management participants in the Northern Territory and Cape York will transition to the Cashless Debit Card from January 2020.

The Cashless Debit Card will be enhanced to feature the ability to accrue interest and improved technology which will mean that transactions will automatically decline, online or in store, if the purchase includes restricted items such as alcohol or gambling products.

The four existing Cashless Debit Card trial sites will be extended for an additional 12 months to 30 June 2021. This includes funding for support services. Funding has also been allocated to 30 June 2021 for a proposed fifth site, as announced in the 2018-19 Mid-Year Economic and Fiscal Outlook (MYEFO).

The transition and new trial will be independently evaluated, including baseline measurement and a full impact evaluation.

### **Improving the lives of vulnerable Australians**

The 2019-20 Budget delivers on a key recommendation from the *Royal Commission into Institutional Responses to Child Sexual Abuse*. The Government has allocated \$22.5 million (to 2024-25) to establish a National Centre for the Prevention of Child Sexual Abuse, which will help ensure the future safety of children and young people, and support survivors of sexual abuse.

The Government has committed \$22.6 million to assist newly arrived migrants, including \$20.4 million for the National Community Hubs Program, creating 32 new Hubs and continuing to fund the 68 existing Hubs, based in primary schools and community centres. Community Hubs provide a familiar space for migrant and refugee women and their families to learn English, develop new skills, find employment, and access programs and services.

### **An increased focus on family and domestic violence and sexual assault**

As part of the Commonwealth's \$328.1 million investment in the *National Plan to Reduce Violence against Women and their Children 2010-2022*, DSS will provide \$263.5 million to fund prevention strategies and frontline service initiatives under the Fourth Action Plan 2019-2022.

As part of this package, DSS will spend \$63.5 million on a range of community programs, information campaigns and awareness-raising activities to stop violence before it begins. This includes \$16.7 million to continue the national campaign to reduce violence against women, *Stop it at the Start*.

Also included is \$78.4 million to provide safe places for people impacted by domestic and family violence, and \$26.2 million to continue training health and community workers to recognise and support people experiencing violence.

National counselling helpline 1800RESPECT will receive \$64.0 million from the package, to support Australians impacted by, or at risk of, domestic and family violence, and sexual assault.

### **Supporting people with disability and Australian carers**

The Government has committed \$527.9 million over five years from 2018-19 to support a *Royal Commission into Violence, Abuse, Neglect and Exploitation of People with Disability*.

The 2019-20 Budget also provides Australia's 2.7 million carers with extra services to ensure they get the help they need before reaching a crisis point.

*Department of Social Services Budget Statements*

Funding of \$84.3 million will be used to provide additional planned and emergency respite services for carers and enhance carer participation in education and training. The funding will also prioritise outcomes for young carers to help them continue in school or their job, which will reduce the risk of long-term welfare dependency.

The new services will be rolled out through Carer Gateway – the Government’s national website and phone service. The services will include counselling, online peer support and coaching from July 2019, and a new regional service delivery network from September 2019.

## **1.2 ENTITY RESOURCE STATEMENT**

Table 1.1 shows the total resources from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4: Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses for Outcome X' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

## Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

**Note:**

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports – to provide an entity's complete performance story.

The most recent corporate plan for DSS can be found at: [www.dss.gov.au](http://www.dss.gov.au).

The most recent annual performance statement can be found at: [www.dss.gov.au](http://www.dss.gov.au).

## 2.3 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 3

### Outcome 3: Disability and Carers

Improved independence of, and participation by, people with disability, including improved support for carers, by providing targeted support and services.

### Linked programs

<p><b>Department of Jobs and Small Business</b></p> <hr/> <p><b>Program</b></p> <ul style="list-style-type: none"> <li>• Program 1.1 – Employment Services</li> </ul> <hr/> <p><b>Contribution to Outcome 3 made by linked program</b></p> <p>The Department of Jobs and Small Business is responsible for the provision of employment programs that assist job seekers into work. This Outcome benefits from this linked program as it encourages job seekers receiving working age payments support to meet their mutual obligation requirements and aligns program activities with broader economic participation policy and compliance frameworks.</p>
<p><b>Department of Health</b></p> <hr/> <p><b>Programs</b></p> <ul style="list-style-type: none"> <li>• Program 2.1 – Mental Health</li> <li>• Program 6.1 – Access and Information</li> <li>• Program 6.2 – Aged Care Services</li> <li>• Program 6.3 – Aged Care Quality</li> </ul> <hr/> <p><b>Contribution to Outcome 3 made by linked programs</b></p> <p>This Outcome benefits from these linked programs as they also seek to improve the independence of, and participation by, people with disability and carers. In particular, the Department of Health manages two programs that will have partial or full funding transition to the NDIS and a continuity of support program for people aged 65 and over currently in state specialist disability services who are not eligible for the NDIS. The Department of Health also has policy responsibility for Medicare Benefits Schedule items in relation to disability and mental health.</p>
<p><b>Department of Human Services</b></p> <hr/> <p><b>Program</b></p> <ul style="list-style-type: none"> <li>• Program 1.1 – Services to the Community – Social Security and Welfare</li> </ul> <hr/> <p><b>Contribution to Outcome 3 made by linked program</b></p> <p>Various payments and concessions under this Outcome are delivered through this linked program administered by the Department of Human Services.</p>

## 2.4 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 4

### **Outcome 4: Housing**

Increased housing supply, improved community housing and assisting individuals experiencing homelessness through targeted support and services.

### **Linked programs**

#### **The Treasury**

#### **Programs**

- Program 1.8 - Assistance to the States for Affordable Housing
- Program 1.9 - National Partnership Payments to the States

#### **Contribution to Outcome 4 made by linked programs**

On behalf of DSS, the Treasury makes payments to the states for the National Housing and Homelessness Agreement. Annual incentives under the National Rental Affordability Scheme are issued by DSS as cash or refundable tax offset certificates. Refundable tax offset certificates are processed by the Australian Taxation Office.

**Table 2.4.1: Budgeted expenses for Outcome 4**

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by administered and departmental funding sources.

## **Section 3: Budgeted financial statements**

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2019-20 Budget year, including the impact of Budget measures and resourcing on financial statements.

### **3.1 BUDGETED FINANCIAL STATEMENTS**

#### **3.1.1 Differences in entity resourcing and financial statements**

Table 3.1 recognises revenue on an accrual basis.

#### **3.1.2 Explanatory notes and analysis of budgeted financial statements**

Budgeted statements of income and expenditure, assets and liabilities, and cash flows have been included for the financial years 2018-19 to 2022-23. These statements are prepared in accordance with the requirements of the Australian Government's financial budget and reporting framework.

Amounts in these statements are rounded to the nearest thousand dollars.

#### **Departmental and Administered Items**

Departmental revenues, expenses, assets and liabilities are those which are controlled by DSS. Departmental expenses include employee and supplier expenses and other administrative costs which are incurred by DSS in providing its goods and services.

Administered items are revenues, expenses, assets and liabilities which are managed by DSS on behalf of the Government, according to set government directions. Administered expenses include subsidies, grants, personal benefit payments and suppliers.

#### **Asset Valuation**

All assets are initially recorded at cost. Property, plant and equipment and other infrastructure assets are periodically revalued to fair value.

**Commentary – Financial Statements**

**Intangibles (Departmental)**

Intangibles represent computer software at cost.

**Employee provisions (Departmental)**

Employee provisions consist of accrued leave entitlements, accrued salary and wages and superannuation payments that are owed to employees at the end of the financial year.

**Receivables (Administered)**

Administered receivables represent amounts owing to the Australian Government for overpayments to benefit recipients. The figure presented in the financial statements is net of provisions recognised for bad and doubtful debts.

**Non-financial assets – other (Administered)**

Other non-financial assets relate to estimated administered prepayments at the end of the financial year.

**Personal benefits payable (Administered)**

Personal benefits payable relates to special appropriation amounts recognised as payables due to the timing of payments to benefit recipients at the end of the financial year.

**Departmental**

**Income and expenses**

DSS is budgeting for a balanced operating result in 2019-20 before allowing for unfunded depreciation expenses of \$78.9 million. Under net cash funding arrangements, asset replacement is funded through capital appropriations.

Total operating revenue for 2019-20 is estimated at \$472.8 million, higher than in 2018-19. Expenditure for 2019-20 is estimated to be \$551.7 million (inclusive of \$78.9 million of unfunded depreciation), lower than in 2018-19.

**Balance sheet**

DSS' budgeted net asset position for 2019-20 is expected to be \$100.0 million, \$50.5 million lower than 2018-19.

**Administered**

**Income and expenses**

DSS will administer the collection of non-taxation revenue estimated at \$778.6 million in 2019-20, higher than 2018-19 mainly due to recoveries of National Redress Scheme for Institutional Child Sexual Abuse payments made on behalf of other governments and organisations.

DSS expenses administered on behalf of the Australian Government will total \$126.3 billion in 2019-20, higher than in 2018-19 mainly due to demographic changes and policy initiatives.

**Balance sheet**

Total assets administered on behalf of the Australian Government are expected to be \$6.6 billion, higher than in 2018-19, primarily due to increased receivables.

Total liabilities administered on behalf of the Australian Government are expected to be \$6.8 billion, higher than 2018-19 primarily due to increased personal benefits payable.

# AUSTRALIAN INSTITUTE OF FAMILY STUDIES

## Section 1: Entity overview and resources

### 1.1 STRATEGIC DIRECTION STATEMENT

The Australian Institute of Family Studies (AIFS or the Institute) is the Australian Government's key research body in the area of family wellbeing. It was established in 1980 under the *Family Law Act 1975*. AIFS' role is to conduct research and communicate findings to policy-makers, service providers and the community about factors affecting family wellbeing.

AIFS' work builds an evidence base about 'what works for families'. The evidence base contributes to developing policy and practice to promote the wellbeing of families in Australia. Within the Australian Government, AIFS is uniquely positioned as a bridge between research, policy and evidence-based practice.

#### Strategic Directions

As outlined in *AIFS Agency (Corporate) Plan 2018-2022*, these four pillars underpin the Institute's organisational strategy:

- **Create knowledge:** research and advice in the design, implementation and evaluation of policy and practices;
- **Communicate for impact:** resources and education for policy, practice, researchers and the public;
- **Collaborate and connect:** bringing policy makers, service providers and researchers together;
- **Activate:** sustainability as an independent Institute.

Recently the Institute developed its 'theory of change'. This articulates how AIFS achieves better outcomes for children, families and communities. The Institute's theory of change sets out the causal pathway to achieving its outcome and organisational purpose.

*Australian Institute of Family Studies Budget Statements*

To summarise the theory of change, AIFS achieves impact as follows:

- 1) AIFS conducts research and translates findings from our own research and the broader evidence base for policy makers and practitioners so that they are able to design effective policies, services and programs for families.
- 2) When informed by evidence from AIFS research, laws, policies and service systems are more effective.
- 3) This leads to better outcomes for children, families, and communities.

Throughout 2019-20, the majority of AIFS' work will again be undertaken on behalf of government agencies seeking research evidence to inform specific policy and service-delivery decisions affecting families, and their communities, in Australia.

AIFS will continue to communicate and translate research findings so they are relevant to policy makers and practitioners. Key stakeholders seeking this information include primarily other Australian Government agencies, but also state, territory and local governments; providers of services to families and children; courts and legal professionals; researchers and policy-makers; and the broader Australian community.

AIFS researchers will also work across governments and the child and family welfare sector to support the use of evidence in both policy and practice. Examples of this work include:

- co-designing evaluation and outcomes measurements for in-house evaluations;
- building the capability of the sector to use evidence-informed practice; and
- undertaking independent large-scale evaluations of national policy initiatives and reforms.

AIFS is one of six Data Linkage Integrating Authorities in Australia. It is strongly engaged with the Australian Government's data sharing and release strategy and the establishment of the Office of the National Data Commissioner. This strategy, once completed, will enhance the Institute's capacity to make more effective use of Commonwealth data, Institute data, and administrative and other statistical holdings and enable AIFS to assist other agencies to benefit from linked data.

To enable AIFS to achieve its priorities, we will continue to experiment, test new ideas and adapt to face the changing external environment.

## Commitment to excellence

AIFS is committed to the pursuit of 'excellence for impact'. We ensure the quality of our work through:

- rigorous ethical standards and oversight by an ethics committee;
- seeking best practice in the design of research methodologies and analysis; and
- subjecting research design, methodology and results to both internal and external review.

Our research work includes projects involving a range of data collection and analytic methods (such as quantitative, qualitative and mixed methods). This includes undertaking longitudinal studies; analysing major national datasets, such as the Australian Bureau of Statistics census; program evaluation; and undertaking literature reviews and submissions to government inquiries.

The Institute maintains high standards in relation to its research and corporate governance through:

- adherence to the standards set by the National Statement on Ethical Conduct in Human Research;
- use of peer reviewing of projects and publications including its own Scientific Research Committee;
- the Australian Gambling Research Centre Expert Advisory Group; and
- the Risk Assessment and Audit Committee.

## Key activities in 2019-20

The Institute's priorities in 2019-20, guided by *AIFS Agency (Corporate) Plan 2018-2022*, will include a number of significant activities:

- **Longitudinal and Lifecourse Studies:** AIFS runs several large-scale longitudinal surveys that help to inform long-term policy and practice. These studies contribute to an evidence base to inform policy development and analysis undertaken by AIFS and by other researchers. They include *Growing up in Australia: The Longitudinal Study of Australian Children*, *Building a New Life in Australia: The Longitudinal Study of Humanitarian Migrants*, and *Ten to Men: The Australian Longitudinal Study on Male Health*.

As these studies progress, their power to change our understanding of what helps and hinders families to thrive continues to grow. In 2019-20, AIFS will focus on explaining the implications of the evidence from its longitudinal data sets to policy makers and practitioners. AIFS communicates these insights from the studies to help governments and services design effective policies, services and programs for families.

AIFS will implement innovative engagement methodologies with its study participants to ensure enduring loyalty to the studies so that a strong story can continue to be told. Knowledge sharing and collaborations with longitudinal studies internationally are essential for continuous improvement. The Institute will continue to grow its international collaborations in 2019-20 by attending and presenting at conferences and organising workshops with key studies from across the globe.

- **Capability building:** The Institute will build the capability of policy agencies and service providers in policy design, evidence-based practice and evaluation. This includes:
  - training for policy makers and child and family welfare practitioners in the use and generation of evidence in their work;
  - delivering the *Child Family Community Australia* information exchange. This is an important vehicle for providing free professional development, translating research findings, disseminating practice-relevant information, and fostering engagement between researchers, policy-makers, and child and family welfare practitioners;
  - working collaboratively with agencies in the design and implementation of policy and program evaluation using codesign and developmental evaluation approaches; and
  - developing tools and outcomes frameworks to assist in the implementation of evaluations.
- **Research communication and policy impact:** Ensuring our research and resources are accessible, relevant and timely is a priority of the Institute. In 2019-20 we will:
  - implement our Knowledge Translation Strategy to enhance the policy impacts of AIFS' research;
  - embed an ongoing content governance process to ensure the most current research, publications and resources are easily discoverable on our website;
  - disseminate AIFS' research findings via our websites, e-newsletters, targeted media, webinars, videos and social media;
  - continue the AIFS Webinar Series: a platform for world-class speakers to share their knowledge on matters affecting family wellbeing. These activities reach a broad audience in Australia and beyond.

- **Developing and delivering the AIFS 2020 Conference:** In 2019-20, AIFS will undertake significant planning for the conference, scheduled for 10-12 June 2020 in Melbourne. The goal is to offer an event that shares knowledge and builds cross sector capability to accelerate positive change in family policy and service systems. The conference offers unrivalled opportunities for policy and service delivery professionals to engage with leading thinkers and researchers across a range of disciplines and sectors who are dedicated to improving the lives of families. Together they will explore how research, policy and practice can ensure that families flourish in this rapidly changing world. This will be a milestone event for the Institute, marking the 40th year since its establishment.
- **Transforming AIFS' operational and business processes:** Effective and efficient operational processes are essential to AIFS' success as they are the enablers of knowledge creation, communication and collaboration functions. Key enhancements in 2019-20 will be:
  - consolidation of the roll out of our shared service finance and payroll platforms;
  - reviewing and revising recruitment strategies to ensure the Institute continues to attract the right mix of talent and expertise among its staff;
  - a major review and refresh of the Institute's Risk Management Framework and continuing to ensure it fosters a positive risk culture; and
  - implementing initiatives arising from a new Information Management and Technology Strategy, which is currently being developed.
- **Transformation of culture:** We will build on the cultural transformation of the Institute that has significantly improved our staff survey results. AIFS is now placed in the top 10 agencies across the Australian Public Service (APS) for staff engagement, innovation and wellbeing (APS Employee Census), and activities are planned to maintain or improve these results.
- **Relationship building:** As in past years, AIFS will continue to build relationships with organisations that also have a stake in research, policy and practice that affect family wellbeing. These relationships help to build research capability and extend communications reach, for the benefit of the Australian Government and the Australian community.

- **The Australian Gambling Research Centre:** This research centre provides high-quality, evidence-based publications and resources to increase the capacity of policy makers, researchers and professionals working in the sector. Key projects for 2019-20 include:
  - the ‘National Consumer Protection Framework for Online Wagering in Australia – Baseline Study’ which DSS has commissioned as part of a larger four-phase evaluation of the National Framework;
  - ‘The Relationship Between Gambling and Domestic Violence Against Women’, a national project funded by Australia’s National Research Organisation for Women’s Safety investigating the nature of the relationship between gambling and domestic violence; and
  - ‘Pints, Punts and Peers’, a study exploring the relationship between alcohol consumption and sports betting among young Australians.

## 1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

### **1.3 BUDGET MEASURES**

There are no new Budget measures relating to AIFS.

## Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

**Note:**

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports – to provide an entity's complete performance story.

The most recent corporate plan for AIFS can be found at: [www.aifs.gov.au](http://www.aifs.gov.au).

The most recent annual performance statement can be found at: [www.aifs.gov.au](http://www.aifs.gov.au).

## 2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

### Outcome 1

Increased understanding of factors affecting how families function by conducting research and communicating findings to policy-makers, service providers and the broader community.

**Table 2.1.1: Budgeted expenses for Outcome 1**

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by administered and departmental funding sources.

**Table 2.1.2: Performance criteria for Outcome 1**

Table 2.1.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2019-20 Budget measures have created new programs or materially changed existing programs.

<p><b>Outcome 1 – Increased understanding of factors affecting how families function by conducting research and communicating findings to policy-makers, service providers and the broader community.</b></p>	
<p><b>Program 1.1 – Australian Institute of Family Studies</b> – To increase understanding of factors affecting how Australian families function by conducting research and communicating findings to policy-makers, service providers and the broader community, AIFS will manage its resources to:</p> <ul style="list-style-type: none"> <li>• undertake high-quality, impartial research relating to the wellbeing of families in Australia;</li> <li>• disseminate findings through multiple channels to identified target audiences;</li> <li>• connect and collaborate with organisations that have a stake in research, policy and practice influencing the wellbeing of families; and</li> <li>• build and maintain a successful organisational culture that ensures high standards of performance, underpinned by ethical behaviour, sound risk and resource management, effective governance, and rigorous accountability procedures, as expected of an Australian Government agency.</li> </ul>	
<p><b>Delivery</b></p>	<p>Research outputs, including research projects involving a range of data collection and analytical methods (including qualitative, quantitative and mixed methods), as well as undertaking longitudinal studies and analyses of major datasets such as the Australian Bureau of Statistics census, data linkage and completing literature reviews and submissions to government inquiries</p> <p>AIFS will focus its work across four strategic areas:</p> <p><b>Create knowledge:</b> research and advice in the design, implementation and evaluation of policy and practice</p> <p><b>Communicate for impact:</b> resources and education for policy, practice, researchers and the public knowledge about families and communities</p> <p><b>Collaborate and connect:</b> bringing policy makers, service providers and researchers together</p> <p><b>Activate:</b> sustainability as an independent Institute</p> <p>Communication activities include:</p> <ul style="list-style-type: none"> <li>• information exchange activities</li> <li>• publications, research reports, fact sheets and papers, as well as articles in journals and books published elsewhere</li> <li>• conferences, seminars, webinars, forums, etc. hosted by AIFS</li> <li>• websites and electronic publishing</li> <li>• Electronic Direct Mail</li> <li>• presentations by AIFS' staff at conferences and forums related to the wellbeing of families in Australia</li> <li>• Government submissions</li> <li>• bibliographic and other library services</li> </ul>

## **Section 3: Budgeted financial statements**

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2019-20 Budget year, including the impact of Budget measures and resourcing on financial statements.

### **3.1 BUDGETED FINANCIAL STATEMENTS**

#### **3.1.1 Differences between entity resourcing and financial statements**

The financial statements in Section 3 recognise revenue on an accrual basis and the entity resourcing is based on available appropriation and cash receipts.

#### **3.1.2 Explanatory notes and analysis of budgeted financial statements**

##### **Departmental**

##### **Income and Expenses**

AIFS is budgeting for a break-even position in 2019-20 and the forward years after adjusting for depreciation and amortisation expenses.

Total own-sourced revenue for 2019-20 is expected to be \$10.9 million and revenue from government is expected to be \$4.5 million.

##### **Balance Sheet**

AIFS has a budgeted net asset position of \$1.8 million in 2019-20.

Total Assets for 2019-20 are estimated to be \$9.9 million, comprising \$7.3 million of financial assets and \$2.6 million in non-financial assets.

Total Liabilities for 2019-20 are estimated to be \$8.1 million, with the primary liabilities being accrued employee entitlements, which total \$2.5 million, supplier payables \$0.4 million and unearned revenue \$5.3 million.

# NATIONAL DISABILITY INSURANCE AGENCY

## Section 1: Entity overview and resources

### 1.1 STRATEGIC DIRECTION STATEMENT

The National Disability Insurance Agency (NDIA) was established under the *National Disability Insurance Act 2013* (the Act) and has responsibility for administering the National Disability Insurance Scheme (NDIS). The Act (in conjunction with other laws) gives effect to Australia's obligations under the United Nations Convention on the Rights of Persons with Disabilities.

The NDIS is a new way of providing support to Australians with significant and permanent disability, their families and carers.

The NDIA is overseen by a Board which has responsibility for ensuring the proper, efficient and effective performance of the NDIA's functions, and setting the NDIA's strategic direction. The NDIA's governance structure also includes an Independent Advisory Council that provides advice to the Board on how effectively the NDIA is delivering the NDIS.

#### Key areas of focus

The NDIA is currently overseeing the transition of the NDIS to full scheme, in accordance with bilateral agreements between the Commonwealth and each state and territory. This represents a rapid scaling, with national participant numbers expected to increase to over 460,000 when the NDIS reaches full scheme.

The NDIA's emphasis throughout its transition to full scheme is on delivering the bilateral agreements through quality, outcomes-focussed plans, in a manner which supports the long term financial sustainability of the NDIS.

The NDIA will achieve this through a continued focus on the following areas, in accordance with the Council of Australian Governments Disability Reform Council's statement of strategic guidance:

- **Ensuring participant and community outcomes:** The NDIA will work to ensure that participants across Australia, including those in rural and remote areas, have access to reasonable and necessary supports, and will be empowered to exercise choice and control to achieve their aspirations.
- **Building and maintaining stakeholder confidence:** The NDIA will build trust and confidence amongst participants, carers, the community and the disability services market by having responsive processes and transparent and consistent communication.

*National Disability Insurance Agency Budget Statements*

- **Identifying strategic risks early and managing risks well:** The NDIA will take a structured approach to identifying and managing risks and develop a sophisticated understanding of the risk interdependencies that could impact delivery of the NDIS.
- **Supporting market development:** The NDIA will, in its role as market steward, support the development of the disability support services market including understanding and reporting on risks to supply, promote the provision of high quality and innovative supports and provide appropriate fraud and compliance controls. It will also support the development of and transition to a national quality and safeguards framework.
- **Safeguarding the sustainability of the NDIS:** The NDIA will ensure the NDIS is financially sustainable in the long term by adhering to insurance principles, using actuarial data and analysis to monitor sustainability and taking early action to minimise emerging cost pressures.
- **Developing a high-performing Agency:** The NDIA must be a high-performing service organisation with the systems, skills, capabilities and mindset to deliver the NDIS.

## **1.2 ENTITY RESOURCE STATEMENT**

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

All figures shown above are GST exclusive – these may not match figures in the cash flow statement.

The NDIA is not directly appropriated as it is a corporate Commonwealth entity. Appropriations are made to DSS, as the responsible non-corporate Commonwealth entity, which are then paid to the NDIA and are considered 'departmental' for all purposes.

<sup>a</sup> Annual appropriation amounts appearing for 2018-19 do not include the Appropriation Bills (No. 3) and (No. 4) 2018-19, as they had not been enacted at the time of publication.

<sup>a</sup> The lead entity for the measure Royal Commission into Violence, Abuse, Neglect and Exploitation of People with Disability is the Attorney-General's Department. A full measure description appears in Budget Paper No. 2, under the Attorney-General's Portfolio.

## Section 2: Outcomes and planned performance

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

**Note:**

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports – to provide an entity's complete performance story.

The most recent corporate plan for the NDIA can be found at: [www.ndis.gov.au](http://www.ndis.gov.au).

**Table 2.1.2: Performance criteria for Outcome 1**

Table 2.1.2 below details the performance criteria for each program associated with Outcome 1. It also summarises how each program is delivered and where 2019-20 Budget measures have created new programs or materially changed existing programs.

<b>Outcome 1 – To implement a National Disability Insurance Scheme that provides individual control and choice in the delivery of reasonable and necessary supports to improve the independence, social and economic participation of eligible people with disability, their families and carers, and associated referral services and activities.</b>		
<b>Program 1.1 – Reasonable and necessary support for participants</b> – The objective of this program is to provide funding for reasonable and necessary support to eligible people with disability through consistent, high quality plans, and to ensure they are in control and have choices to appropriately support their independence and social and economic participation. This program contributes to the outcome by the delivery of financially sustainable funding for participants' reasonable support, enabling participants to source services in their plans to achieve their goals.		
<b>Delivery</b>	The program provides funding for reasonable and necessary support to eligible participants in the NDIS with an approved plan. Funding arrangements are via cash payments to participants and registered service providers and the allocation of existing Commonwealth and state and territory arrangements

## **Section 3: Budgeted financial statements**

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2019-20 Budget year, including the impact of Budget measures and resourcing on financial statements.

### **3.1 BUDGETED FINANCIAL STATEMENTS**

#### **3.1.1 Explanatory notes and analysis of budgeted financial statements**

##### **Income and expenses**

In 2019-20, the NDIS enters the fourth year of transition to full scheme. The large uptake in participants is represented by the increase in participant plan expenses to \$16.3 billion in 2019-20. Participant plan expenses continue to increase across the forward estimates as further participants join the NDIS, rising to \$23.4 billion in 2022-23.

The growth in supplier expenses, primarily driven by the growth in community partnership costs for services provided by the NDIA's community partners is the largest component of the NDIA operating costs and peaks at \$1.1 billion in 2018-19, before reducing as the NDIS moves from the transition phase to full scheme. Similarly, employee benefit expenses increase to \$319.6 million in 2019-20 and \$350.0 million in 2020-21 as the NDIS rolls out to new locations prior to stabilising once full scheme is reached.

Sale of goods and services revenue increases from \$10.2 billion in 2018-19 to \$14.7 billion in 2019-20 and further increasing to \$21.6 billion by 2022-23. This change is due to the increase in participant numbers as the NDIS continues transition to full scheme.

Since 2017-18, Commonwealth funding for programs 1.1 and 1.2 has been appropriated to DSS and paid to the NDIA as required. These amounts are reflected as revenue from the sale of goods and services in these years. Commonwealth funding for the NDIA's operating costs will continue to be appropriated to the NDIA and is reflected as revenue from Government.

The NDIA receives services provided in-kind to participants on behalf of the Commonwealth Government and state and territory governments, reflected as resources received free of charge. This revenue rises from \$1.6 billion in 2018-19 to \$1.7 billion in 2019-20. It continues to rise in 2020-21 with a gradual increase over the forward estimates.

The NDIA is forecasting an operating surplus of \$49.4 million in 2018-19. This is primarily a result of lower than expected level of supplier costs.

## **Balance sheet**

The NDIA is budgeting for a net asset position of \$1.9 billion in 2019-20.

Total assets in 2019-20 are forecast to be \$2.9 billion, comprised of \$2.8 billion in financial assets and \$118.5 million in non-financial assets. The most significant asset is cash of \$2.4 billion, which will be used to fund payments for reasonable support as well as the NDIA's operations. Total liabilities are expected to be \$995.7 million, comprised primarily of \$706.4 million in participant plan provisions, \$223.5 million in supplier payables and \$55.6 million in unpaid employee entitlements.

## **Statement of cash flows**

The NDIA's budgeted cash flows largely reflect activity in the income statement, with no significant variations between income and expenses and their associated cash flows. The total cash received from operating activities will increase from \$11.9 billion in 2018-19 to \$16.3 billion in 2019-20, rising to \$23.1 billion in 2022-23. This primarily reflects increased funding from the Commonwealth Government, and state and territory governments as the NDIS moves towards full scheme. This will be offset by increased cash payments for reasonable and necessary support, and employee and supplier expenses as the NDIS grows.

## **Capital budget statement**

The NDIA will invest \$8.7 million in the purchase of leasehold improvements during 2019-20, the final year of transition by which time the NDIA's network will be fully established, requiring a lower level of capital funding to maintain in 2020-21 and beyond. This will be funded through the use of prior year unspent equity injections.

## NDIS QUALITY AND SAFEGUARDS COMMISSION

### Section 1: Entity overview and resources

#### 1.1 STRATEGIC DIRECTION STATEMENT

The NDIS Quality and Safeguards Commission (NDIS Commission) was established on 1 July 2018 by the *National Disability Insurance Scheme Act 2013*, as amended by the *National Disability Insurance Scheme Amendment (Quality and Safeguards Commission and Other Measures) Act 2017*. The NDIS Commission is a non-corporate entity subject to the PGPA Act.

The NDIS Commission is an independent body that works with people with disability, providers and the community to deliver nationally consistent, responsive and effective regulation of NDIS providers.

The NDIS Commission is responsible for the following functions, as it commences in each jurisdiction:

- to uphold the rights of, and promote the health, safety and wellbeing of, people with disability receiving supports or services, including those received under the NDIS;
- to develop a nationally consistent approach to managing quality and safeguards for people with disability receiving supports or services, including those received under the NDIS;
- to promote the provision of advice, information, education and training to NDIS providers and people with disability;
- to secure compliance through effective enforcement arrangements, including through the monitoring and investigation functions, and analysis of reports from NDIS providers on serious incidents affecting NDIS participants;
- to promote continuous improvement amongst NDIS providers and the delivery of progressively higher standards of supports and services to people with disability in the NDIS;
- to develop and oversee the broad policy design for a nationally consistent framework relating to the screening of workers involved in the provision of supports and services to people with disability;
- to engage in, promote and coordinate the sharing of information;

*NDIS Quality and Safeguards Commission Budget Statements*

- to provide NDIS market oversight, including:
  - monitoring changes in the NDIS market which may indicate emerging risk; and
  - monitoring and mitigating the risks of unplanned service withdrawal.
- to monitor registered NDIS provider compliance with their conditions of registration, including in relation to the screening of workers in accordance with the NDIS practice standards;
- to investigate, manage and resolve complaints conferred to the NDIS Commission, including notification and management of reportable incidents; and
- to provide leadership in relation to behaviour support, and in the reduction and elimination of the use of restrictive practices by NDIS providers.

**Key priorities for 2019-20**

From 1 July 2019, the key priorities for the NDIS Commission will be:

- to continue operation of the national office for the NDIS Commission as well as the regional offices for New South Wales and South Australia; to commence operations in Queensland, Victoria, Tasmania, the Northern Territory and the Australian Capital Territory for 1 July 2019; and to work towards establishing operations in Western Australia for 1 July 2020;
- to engage with NDIS participants, their families, carers and providers to improve the quality and safety of NDIS supports and services;
- to ensure that participants are empowered to exercise their rights to access good quality services, as informed, protected consumers, with participants able to make complaints to the NDIS Commission about services that do not meet the NDIS Code of Conduct and Practice Standards;
- to provide oversight of reportable incidents and complaints relating to abuse and neglect of people with disability who receive NDIS supports and services;
- to build intelligence to monitor and forecast changes in the NDIS market, and serious incidents affecting NDIS participants, to develop an informed view of quality and risk in the sector;
- to lead the reduction and elimination of the use of restrictive practices in the NDIS by providing leadership in behaviour support;

*NDIS Quality and Safeguards Commission Budget Statements*

- to develop the NDIS Commission to ensure it has the systems, skills and capabilities to regulate, support and educate the providers and participants to promote continuous improvement;
- to draw information from across NDIS Commission functions to report on the experience of people with disability who receive NDIS services and develop information and education to build the capability of NDIS providers to deliver safe and quality services; and
- to work with DSS and states and territories to implement nationally consistent NDIS worker screening and market oversight activities.

## 1.2 ENTITY RESOURCE STATEMENT

Table 1.1 shows the total funding from all sources available to the entity for its operations and to deliver programs and services on behalf of the Government.

The table summarises how resources will be applied by outcome (government strategic policy objectives) and by administered (on behalf of the Government or the public) and departmental (for the entity's operations) classification.

For more detailed information on special accounts and special appropriations, please refer to *Budget Paper No. 4 – Agency Resourcing*.

Information in this table is presented on a resourcing (that is, appropriations/cash available) basis, whilst the 'Budgeted expenses by Outcome 1' tables in Section 2 and the financial statements in Section 3 are presented on an accrual basis.

## Section 2: Outcomes and planned performance

### 2.1 OUTCOMES AND PERFORMANCE INFORMATION

Government outcomes are the intended results, impacts or consequences of actions by the Government on the Australian community. Commonwealth programs are the primary vehicle by which government entities achieve the intended results of their outcome statements. Entities are required to identify the programs which contribute to government outcomes over the Budget and forward years.

Each outcome is described below together with its related programs. The following provides detailed information on expenses for each outcome and program, further broken down by funding source.

**Note:**

Performance reporting requirements in the Portfolio Budget Statements are part of the enhanced Commonwealth performance framework established by the *Public Governance, Performance and Accountability Act 2013*. It is anticipated that the performance criteria described in Portfolio Budget Statements will be read with broader information provided in an entity's corporate plans and annual performance statements – included in Annual Reports – to provide an entity's complete performance story.

The most recent corporate plan for the NDIS Commission can be found at: [www.ndiscommission.gov.au](http://www.ndiscommission.gov.au).

There are no annual performance statements as the NDIS Commission was established on 1 July 2018. The first set will be published in the second half of 2019.

## 2.1 BUDGETED EXPENSES AND PERFORMANCE FOR OUTCOME 1

### **Outcome 1**

Promote the delivery of quality supports and services to people with disability under the National Disability Insurance Scheme and other prescribed supports and services, including through nationally consistent and responsive regulation, policy development, advice and education.

### **Linked programs**

#### **National Disability Insurance Agency**

#### **Program**

- Program 1.1 - Reasonable and necessary support to participants

#### **Contribution to Outcome 1 made by linked program**

The NDIA contributes through the creation of the NDIS which supports service providers with the costs of obtaining registration and provision of education and training for providers, workers and auditors.

**Budgeted expenses for Outcome 1**

This table shows how much the entity intends to spend (on an accrual basis) on achieving the outcome, broken down by program, as well as by administered and departmental funding sources.

## **Section 3: Budgeted financial statements**

Section 3 presents budgeted financial statements which provide a comprehensive snapshot of entity finances for the 2019-20 Budget year, including the impact of Budget measures and resourcing on financial statements.

### **3.1 BUDGETED FINANCIAL STATEMENTS**

#### **3.1.1 Explanatory notes and analysis of budgeted financial statements**

##### **Departmental**

###### **Income and expenses**

The NDIS Commission commenced its operations on 1 July 2018 in New South Wales and South Australia. It will commence operations in Queensland, Victoria, Tasmania, the Northern Territory and the Australian Capital Territory from 1 July 2019.

The total revenue from government for 2019-20 is expected to be \$49.9 million compared to \$35.1 million in 2018-19. Expenditure, inclusive of \$0.6 million unfunded depreciation, is estimated to increase to \$50.5 million from \$35.6 million.

###### **Balance sheet**

The NDIS Commission budgeted net asset position for 2019-20 of \$2.0 million is unchanged from 2018-19.

Total assets are budgeted to be \$3.6 million in 2019-20 compared to \$3.2 million in 2018-19 due to an increase in financial assets from \$1.2 million to \$1.7 million.

Total liabilities for 2019-20 are budgeted to increase to \$1.7 million from \$1.2 million due to increased employee liabilities.

##### **Administered**

###### **Income and expenses**

The NDIS Commission is expecting to administer a grant program totalling \$4.4 million in 2019-20.

###### **Balance sheet**

Total liabilities administered on behalf of the Government for 2019-20 is expected to be \$0.9 million.

## PORTFOLIO GLOSSARY

accrual accounting	System of accounting in which items are brought to account and included in the financial statements as they are earned or incurred, rather than as they are received or paid.
additional estimates	Where amounts appropriated at budget time are insufficient, Parliament may appropriate more funds to portfolios through the Additional Estimates Acts.
administered funds	Usually the funds or expenses an entity manages on behalf of the Government.
administered items	Appropriation that consists of funding managed on behalf of the Commonwealth. This funding is not at the discretion of the entity, and any unspent appropriation is returned to the Consolidated Revenue Fund (CRF) at the end of the financial year. An administered item is a component of an administered program. It may be a measure but will not constitute a program in its own right.
annual appropriation	Two appropriation bills are introduced into Parliament in May and comprise the Budget. Further Bills are introduced later in the financial year as part of the additional estimates. Parliamentary departments have their own appropriations.
Appropriation	An amount of public money Parliament authorises for spending (i.e. funds to be withdrawn from the CRF). Parliament makes laws for appropriating money under the Annual Appropriation Acts and under special appropriations, with spending restricted to the purposes specified in the Appropriation Acts.
Appropriation Bill (No. 1)	The Bill proposes spending from the CRF for the ordinary annual services of Government. Once the Bill is passed by Parliament and given Royal Assent, it becomes the Appropriation Act (No. 1).

## Glossary

Appropriation Bill (No. 2)	This bill proposes spending from the CRF for purposes other than the ordinary annual services of Government. Under existing arrangements between the two Houses of Parliament (the 'Compact'), this Bill includes appropriation funding of administered expenses for new outcomes, for payments to the states and territories, and for departmental or administered capital. Funding for extensions to existing programs can be included in Appropriation Bill (No. 1). Once the bill is passed by Parliament and given Royal Assent, it becomes the Appropriation Act (No. 2).
Appropriation Bills (No. 3 and No. 4)	If an amount provided in Appropriation Acts (No.1 or No. 2) is not enough to meet approved expenditure to be paid in a financial year, supplementary appropriation may be sought in Appropriation Bills (No. 3 or No. 4). However, they are also commonly referred to as the Additional Estimates Bills. Once these bills are passed by Parliament and given Royal Assent, they become the Appropriation Acts (No. 3 and No. 4).
assets	Future economic benefits controlled by an entity as a result of past transactions or other past events.
average staffing levels	The average number of employees receiving salary/wages (or compensation in lieu of salary/wages) over a financial year, with adjustments for casual and part-time employees to show the full-time equivalent.
Consolidated Revenue Fund (CRF)	The principal operating fund from which money is drawn to pay for the activities of the Government. Section 81 of the Australian Constitution provides that all revenue raised or monies received by the Executive Government form one consolidated revenue fund from which appropriations are made for the purposes of the Australian Government.
cross-portfolio budget measure	A budget measure that affects programs administered in a number of portfolios.
departmental items	Resources (assets, liabilities, revenues and expenses) that entity chief executive officers control directly. This includes outsourced activities funded and controlled by the entity. Examples of departmental items include entity running costs, accrued employee entitlements and net appropriations. A departmental item is a component of a departmental program.

depreciation	Apportionment of an asset's capital value as an expense over its estimated useful life to take account of normal usage, obsolescence or the passage of time.
equity or net assets	Residual interest in the assets of an entity after deduction of its liabilities.
estimates	An entity's expected revenues, expenses, assets, liabilities and cash flows. They are prepared for each program in the Budget, in consultation with the Department of Finance (see also <i>forward estimates</i> and <i>additional estimates</i> ).
expenses	Total value of all of the resources consumed in producing goods and services or the loss of future economic benefits in the form of reductions in assets or increases in liabilities of an entity.
forward estimates	The financial statement estimate for the three out years after the budget year.
grants	Non-reciprocal transfers of economic resources, in which the payer entity does not receive approximately equal value in return.
key performance indicators	Qualitative and quantitative measures of a program that provide a guide on performance where direct causal links are not obvious and changes in performance are difficult to measure directly.
measure	A new policy or savings decision of the Government with financial impacts on the Government's underlying cash balance, fiscal balance, operating balance, headline cash balance, net debt or net worth.
Mid-Year Economic and Fiscal Outlook (MYEFO)	Provides an update of the Government's budget estimates by examining expenses and revenues year to date, as well as provisions for new decisions that have been taken since the Budget. The report provides updated information to allow assessment of the Government's fiscal performance against the fiscal strategy set out in its current fiscal strategy statement.
outcome	The intended result, consequence or impact of government actions on the Australian community.

## Glossary

outcome statement	<p>Articulates the intended results, activities and target group of an Australian Government entity. An outcome statement serves three main purposes within the financial framework:</p> <ul style="list-style-type: none"><li>• to explain and control the purposes for which annual appropriations are approved by the Parliament for use by entities;</li><li>• to provide a basis for annual budgeting, including (financial) reporting against the use of appropriated funds; and</li><li>• to measure and assess entity and program (non-financial) performance in contributing to government policy objectives.</li></ul>
performance information	<p>Evidence about performance that is collected and used systematically. Evidence may relate to appropriateness, effectiveness and efficiency. It may be about outcomes, factors that affect outcomes, and what can be done to improve them.</p>
portfolio	<p>A minister's area of responsibility as a member of Cabinet. A portfolio consists of one or more Departments of State (portfolio departments) and entities with similar general objectives and outcomes.</p>
program	<p>An activity that delivers benefits, services or transfer payments to individuals, industry and/or the community as a whole, with the aim of achieving the intended result specified in an outcome statement.</p>
<i>Public Governance, Performance and Accountability Act 2013 (PGPA Act)</i>	<p>The primary piece of Commonwealth resource management legislation, establishing a coherent system of governance and accountability for public resources, with an emphasis on planning, performance and reporting. The Act applies to all Commonwealth entities and Commonwealth companies from 1 July 2014.</p>
receipts	<p>The total or gross amount received by the Commonwealth. Each receipt item is either revenue, an offset within outlays, or financing transactions. Receipts include taxes, interest, charges for goods and services, borrowings and government business enterprise dividends received.</p>

revenue	Total value of resources earned or received to cover the production of goods and services, or increases in future economic benefits in the form of increases in assets or reductions in liabilities of an entity.
special accounts	Balances existing within the CRF that are supported by standing appropriations (PGPA Act, sections 78 and 80). Special accounts allow money in the CRF to be acknowledged as set aside (hypothecated) for a particular purpose. Amounts credited to a special account may only be spent for the purposes of the special account. Special accounts can only be established by a written determination of the Finance Minister (PGPA Act, section 78) or through an Act of Parliament (referred to in section 80 of the PGPA Act).
special appropriation (including standing appropriations)	<p>An amount of money appropriated by a particular Act of Parliament for a specific purpose and number of years. For special appropriations, the authority to withdraw funds from the CRF does not generally cease at the end of the financial year.</p> <p>Standing appropriations are a subcategory consisting of ongoing special appropriations; the amount appropriated will depend on circumstances specified in the legislation.</p>
